

SUGGESTIONS

The 100% formaldehyde free is the most important feature of this treatment. The results last between 3 to 4 months on most types of hair; for better results follow the suggestion below.

- Wash your hair every 3 0 4 days.
 - Do not use any type of bleach within the first 2 months.
 - Avoid using gel, mouse, hair spray, hair gel, glue.
 - For the first few months to avoid the continued use of clips, rubber bands, combs, or any other decoration that can cause marks to the hair.
 - The visit to the pool will result in immediate withdrawal of the keratin treatment; and go to the beach, the length of treatment will be less than what is established.
 - Some very curly hair needed to reapply in a period between 3 and 4 weeks, ask for special prices (if your case applies.)
- As part of the daily care of his treatment of Keratin we recommend using: NO SALT Shampoo & Conditioner .

* In YOUR hands are the day care and the durability of the treatment keratin.

**For medium, thick, kinky and curly hair we recommend leave the treatment for 48 hours them wash as normal with Not SALT SHAMPOO and apply the MASK step 3.
